Step 4: Naming the Template	4
Step 5: Selecting Attributes	5
Step 6: Saving the Template	5
Step 7: Confirmation of Creation	6

Creation Of Inspection Template

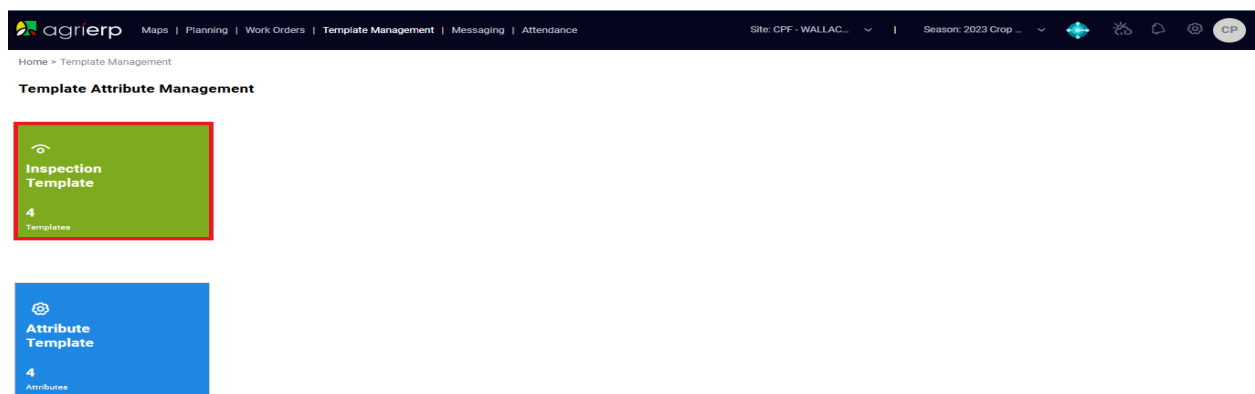

Step 1: Accessing the Template Management System

- 1.1 open a web browser and navigate to AgriERP web app
- 1.2 Enter your credentials and click login
- 1.3 From menu click Template Management

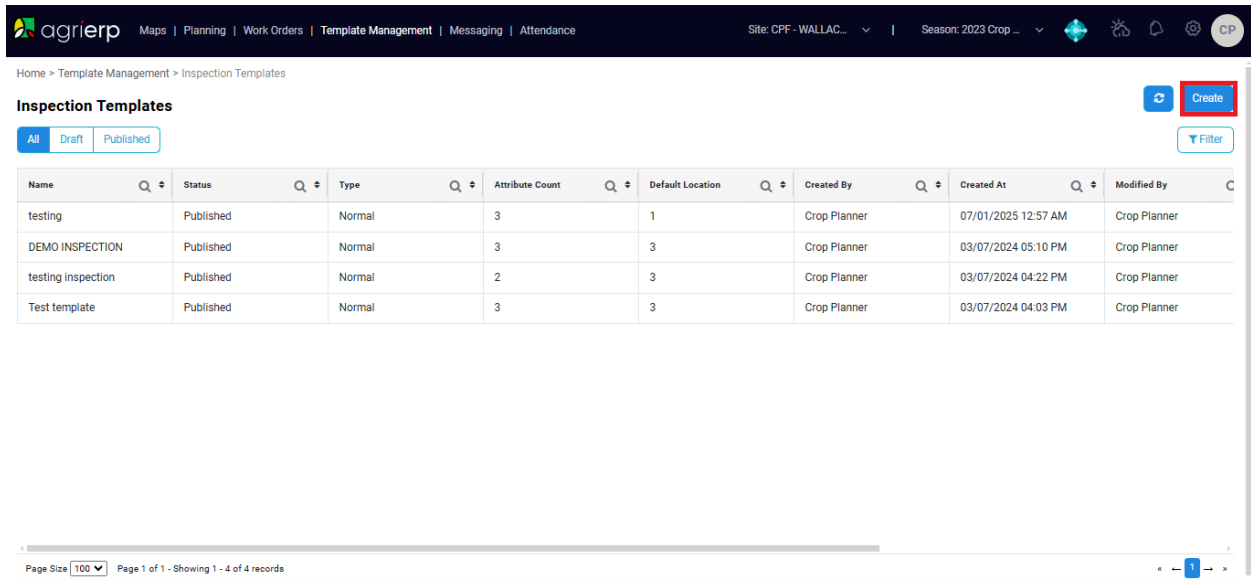

Step 2: Navigating to Inspection Template

- 2.1 Click on inspection template

Step 3: Initiating Creation

3.1 Click on create

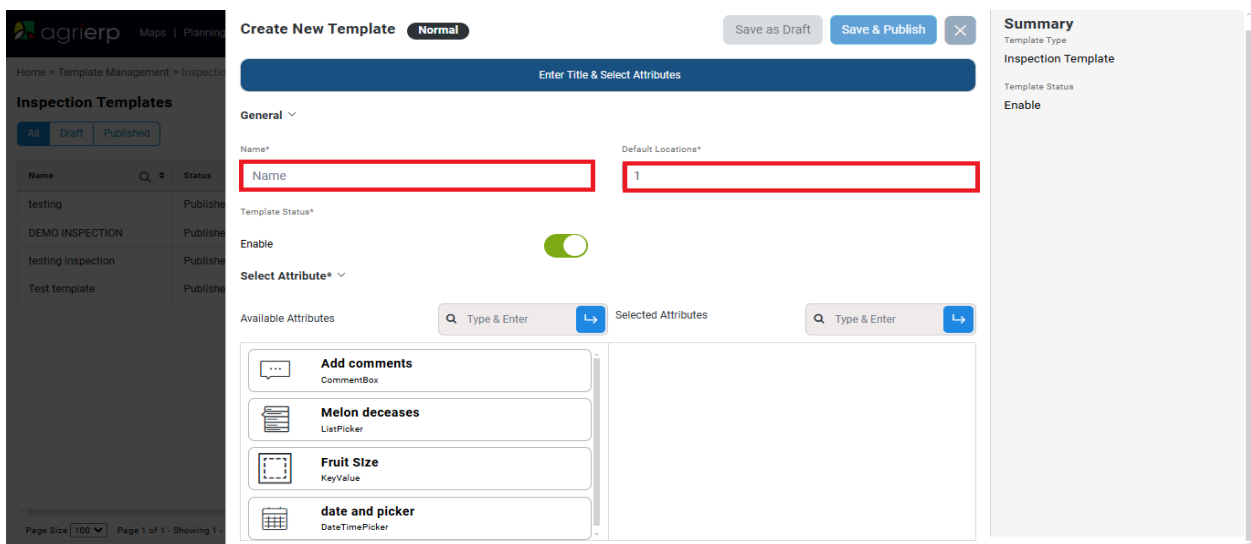

The screenshot shows the 'agrierp' interface with the 'Template Management' tab selected. The 'Create' button is highlighted in red. Below the header, there is a table of 'Inspection Templates' with columns: Name, Status, Type, Attribute Count, Default Location, Created By, Created At, and Modified By. The table contains four rows of data.

Name	Status	Type	Attribute Count	Default Location	Created By	Created At	Modified By
testing	Published	Normal	3	1	Crop Planner	07/01/2025 12:57 AM	Crop Planner
DEMO INSPECTION	Published	Normal	3	3	Crop Planner	03/07/2024 05:10 PM	Crop Planner
testing inspection	Published	Normal	2	3	Crop Planner	03/07/2024 04:22 PM	Crop Planner
Test template	Published	Normal	3	3	Crop Planner	03/07/2024 04:03 PM	Crop Planner

Step 4: Naming the Template

4.1 Enter the name of the template

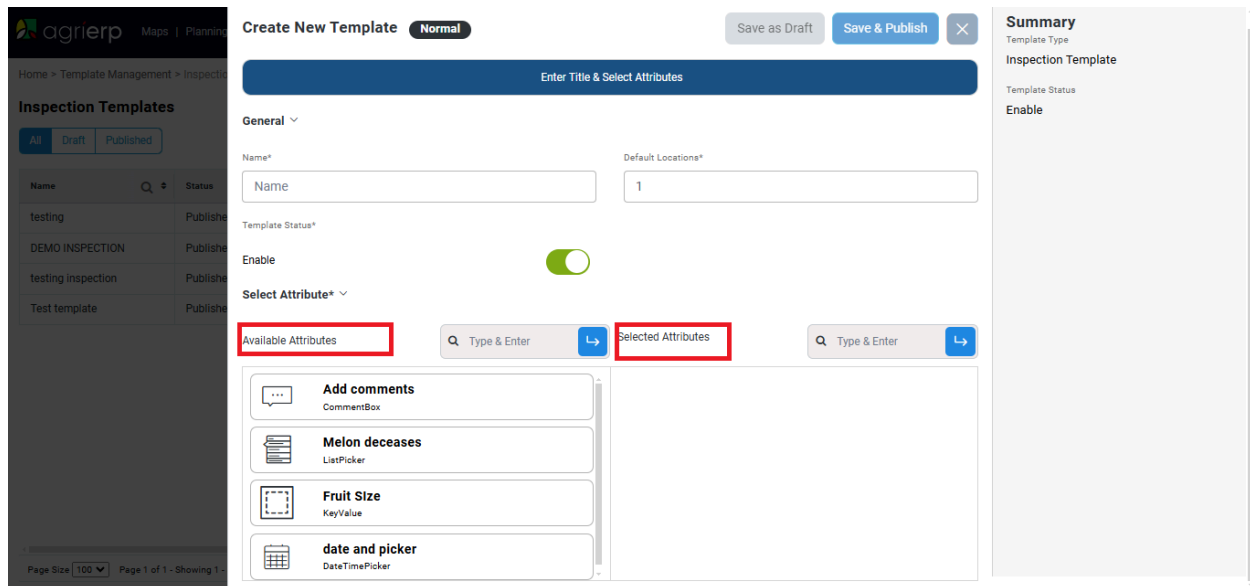

4.2 Enter the number of default locations

The screenshot shows the 'Create New Template' form in the 'agrierp' interface. The 'Name' field and the 'Default Locations' field are highlighted in red. The form includes a 'General' section with fields for 'Name*', 'Default Locations*', 'Template Status*', and an 'Enable' toggle. There is also a 'Select Attribute*' section with a list of available attributes: 'Add comments' (CommentBox), 'Melon deceases' (ListPicker), 'Fruit Size' (Key/Value), and 'date and picker' (DateTimePicker). The 'Summary' panel on the right shows the template type as 'Inspection Template' and the status as 'Enable'.

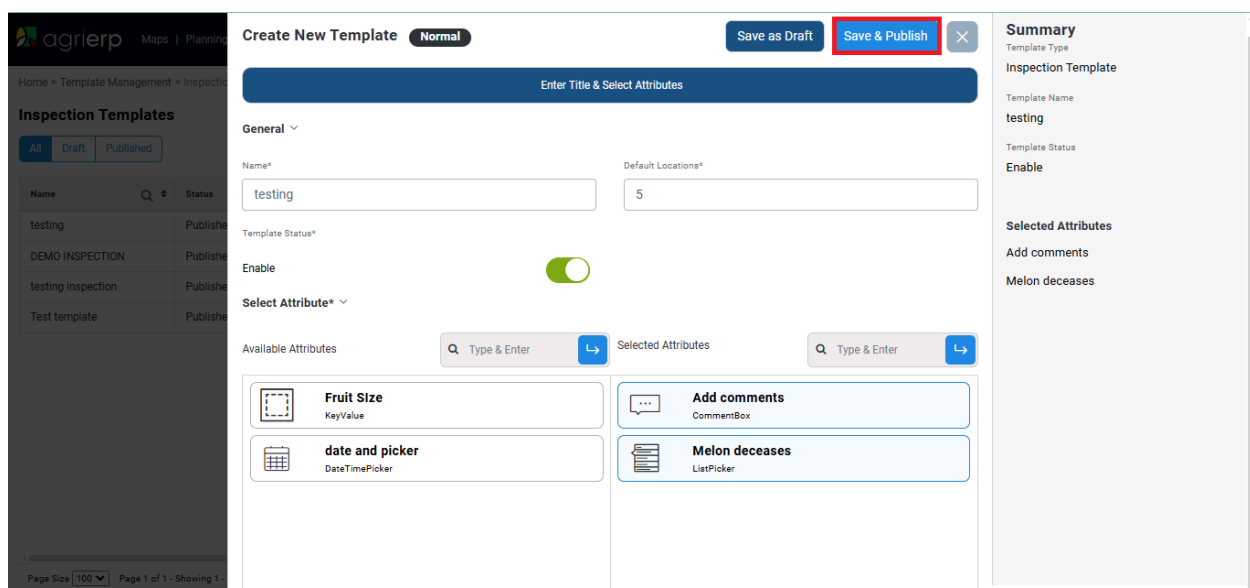

Step 5: Selecting Attributes

5.1 Drag and drop the attributes you want to select from Available Attributes section to Selected Attributes section

Step 6: Saving the Template

6.1 Click on “Save And publish”

Step 7: Confirmation of Creation

7.1 Success toast message should be shown after successful creation of inspection template
