Creation of Material Template

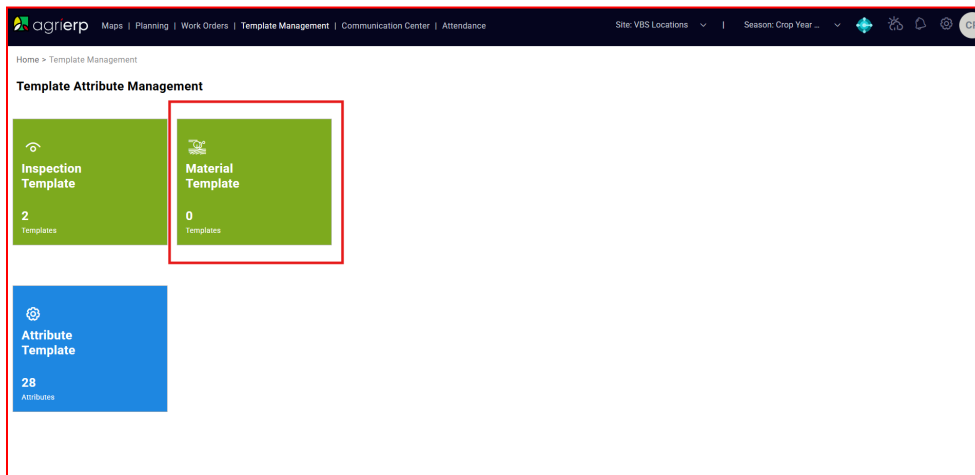

Step 1: Accessing the Template Management System

- 1.1 Open a web browser and navigate to AgriERP web app
- 1.2 Enter your credentials and click login
- 1.3 From top menu click Template Management

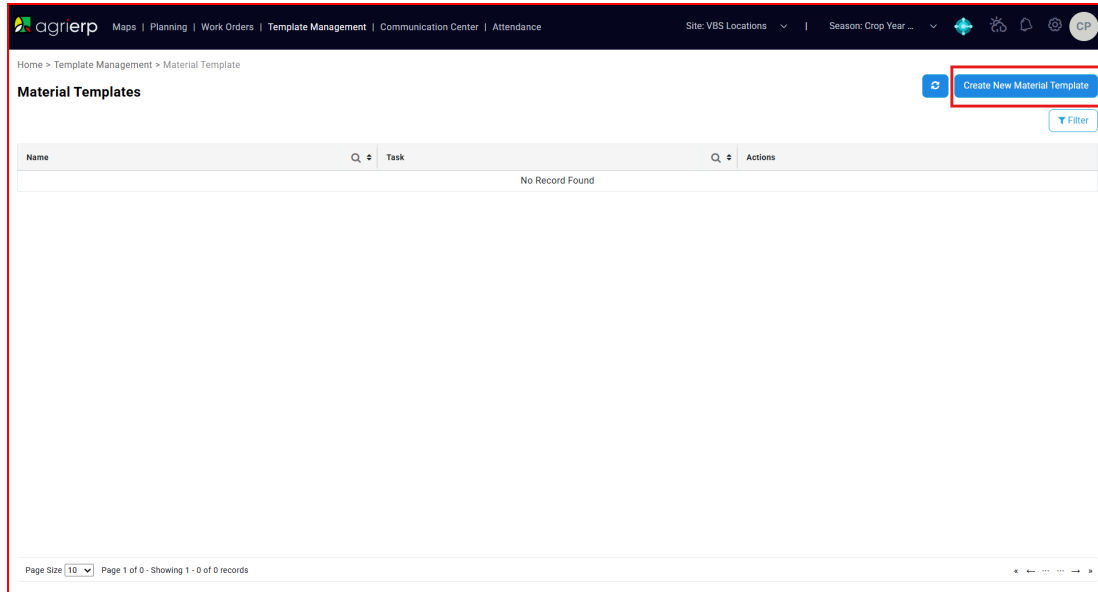

Step 2: Navigating to Material Template

- 2.1 Click on material template

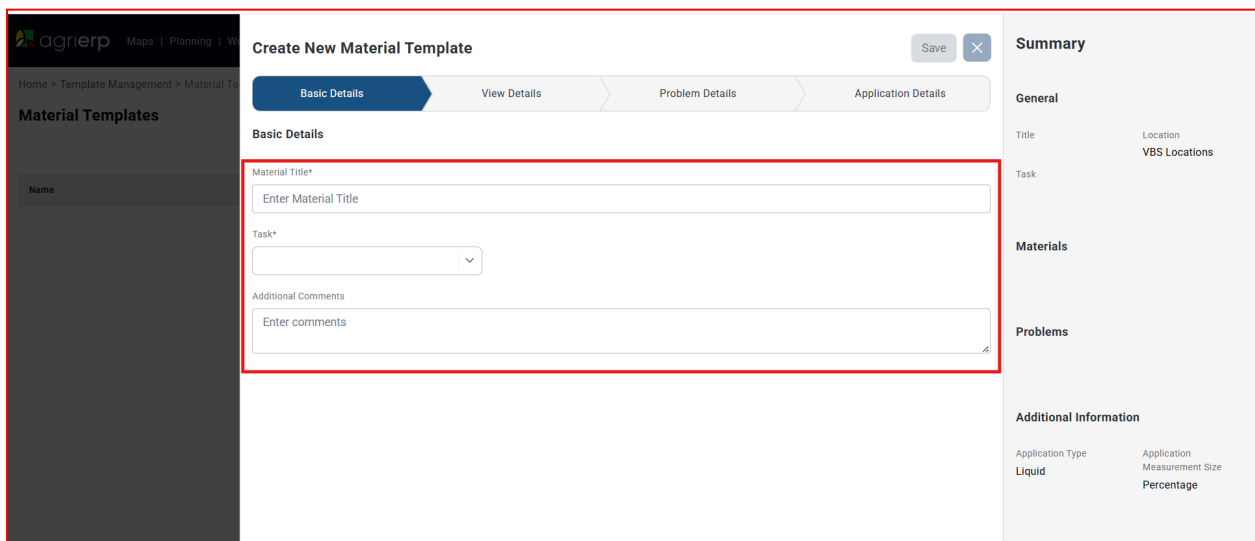

Step 3: Initiating Creation

3.1 Click on create

Step 4: Fill Basic Details Tab

4.1 Enter material template title, select task and optionally add comments.

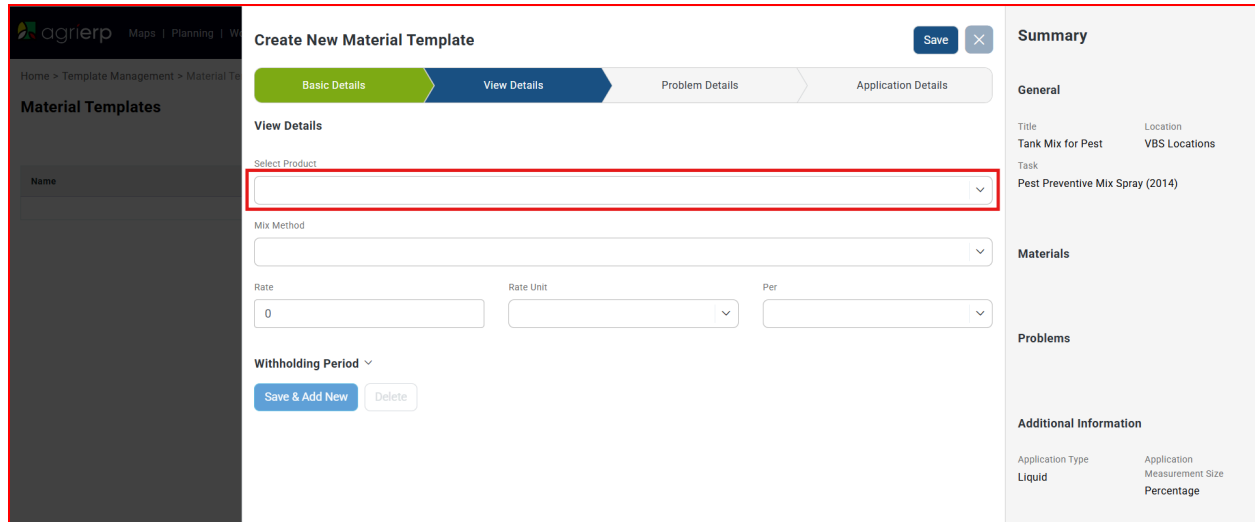

The screenshot shows the 'Create New Material Template' form. The form has tabs for Basic Details, View Details, Problem Details, and Application Details. The Basic Details tab is active, showing fields for Material Title*, Task*, and Additional Comments. A red box highlights the Basic Details section. The form also includes a Summary section on the right with fields for Title, Location, Task, Materials, Problems, and Additional Information.

4.2 After entering the basic details click on the second tab on top to move to the next section.

Step 5: Fill View Details Tab

5.1 Click on the Select Product dropdown

6.2 Click on Save button on bottom left. To add another problem, repeat the process. To proceed to next section, click on “Application Details” tab

The screenshot shows the 'Create New Material Template' form in the 'Problem Details' tab. The 'Save' button is highlighted with a red box. The form includes fields for 'Select Problem' (Cutworm), 'Infestation' (10), 'Infestation Unit' (%), and 'Description' (Enter description). The 'Application Details' tab is also visible and highlighted with a red box.

Step 7: Fill the Application Details Tab

7.1 Select Application Method, Nozzle Type & Droplet Size from the drop down and enter Total Application Rate, Tank Size and Preharvest (in no. of days).

The screenshot shows the 'Create New Material Template' form in the 'Application Details' tab. The 'Application Details' tab is highlighted with a red box. The form includes fields for 'Application Method' (Liquid Application), 'Total Application Rate' (gal/ha), 'Tank Size' (gal), 'Nozzle Type', 'Droplet Size', and 'Preharvest (PHI)' (Days). The 'Summary' section on the right shows the 'General' information, including Title, Location, Task, and Pest Preventive Mix Spray (2014).

7.2 Click on the Save button. The material template will be successfully saved.
