# Enabling and Cloning of Inspection template

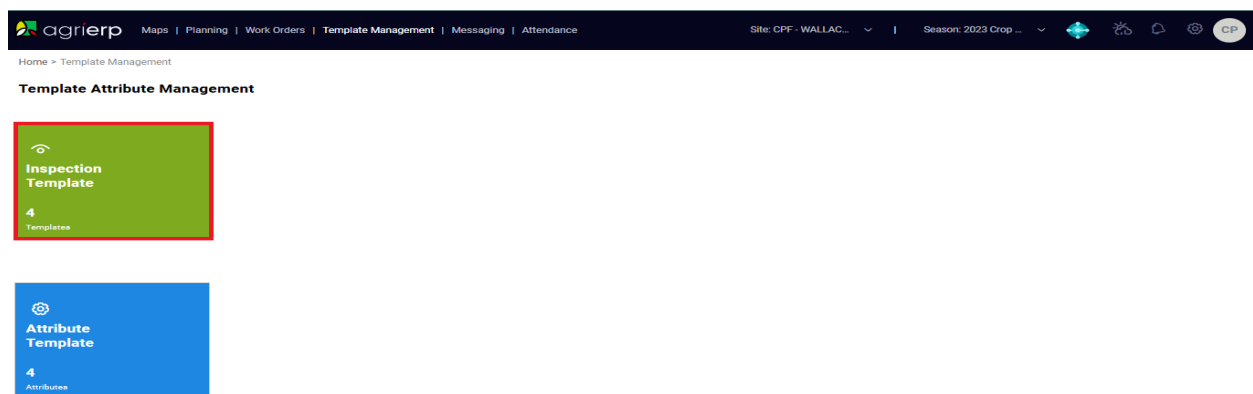

## Step 1: Accessing the Template Management System

- 1.1 open a web browser and navigate to AgriERP web app
- 1.2 Enter your credentials and click login
- 1.3 From menu click Template Management

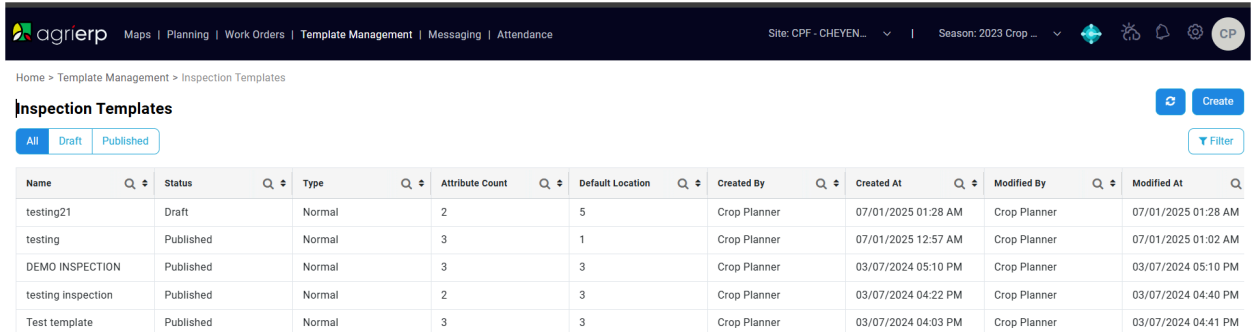

## Step 2: Navigating to Inspection Template

- 2.1 Click on inspection template

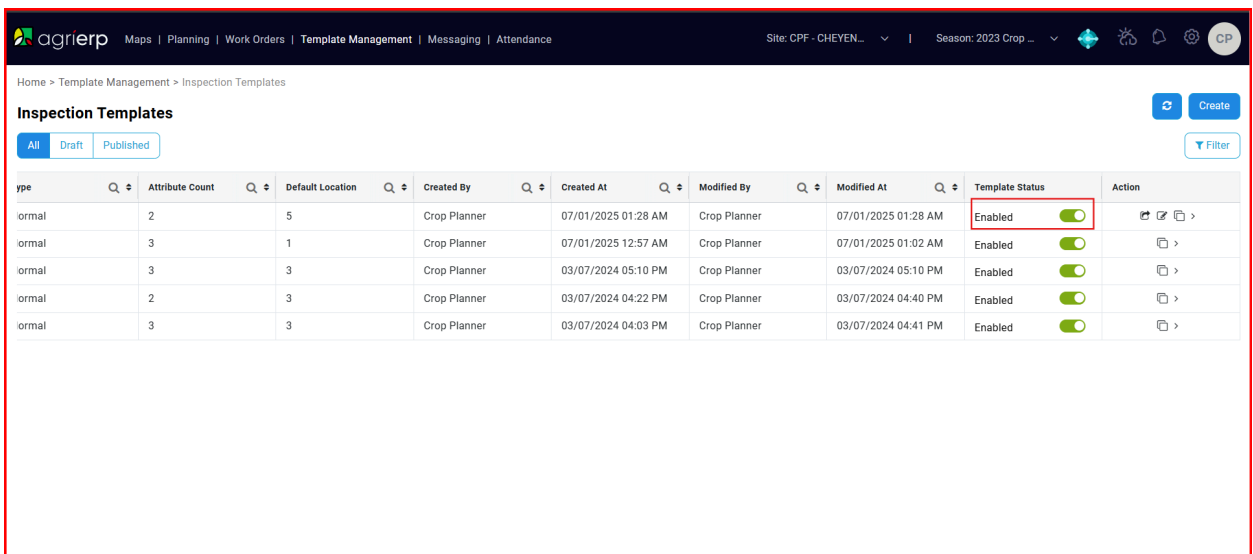

## Step 3: Enabling Template

- Navigate to the **inspection Template**, where the **inspection List** will be displayed.

- Once enabled, the template will be visible in the **workorder** when creating the inspection workorder.
- For example, enabling the **Demo Inspection** template will now be visible and available for selection during the creation of the workorder.
- Navigation of workorder
  1. From the menu, click on work orders.
  2. Click on the Inspection Tab.

3. Click on Create
4. Select inspection template

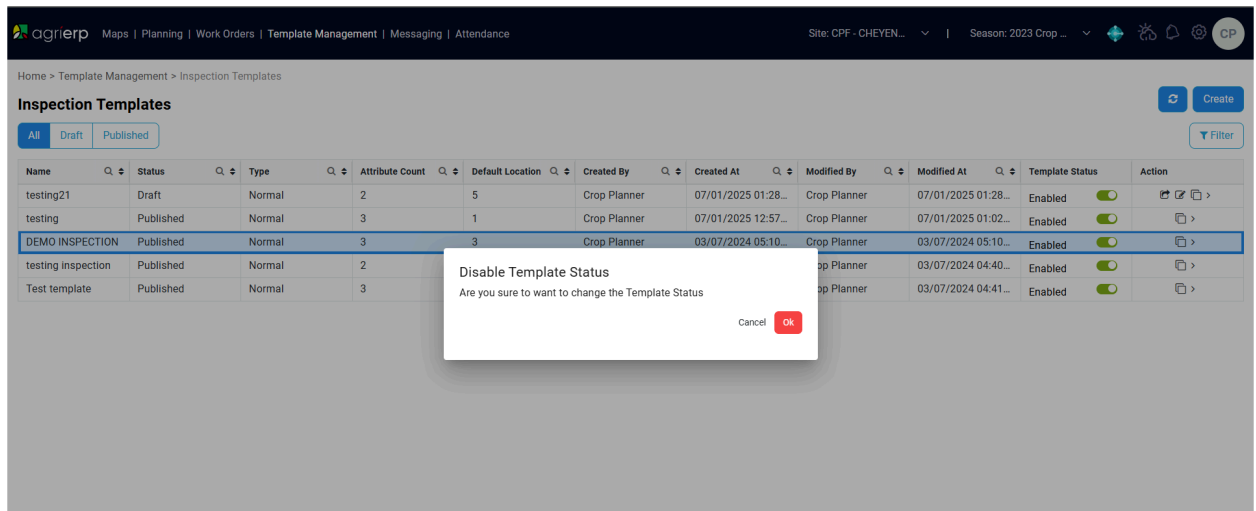

## Step 4: Disabling Template

- To disable the template, toggle the switch to **Off**.

- Confirmation message show

The screenshot shows the 'Inspection Templates' table in the agriERP system. A modal dialog box titled 'Disable Template Status' is displayed in the center, asking 'Are you sure you want to change the Template Status' with 'Cancel' and 'OK' buttons. The table lists several templates, including 'testing21', 'testing', 'DEMO INSPECTION', 'testing inspection', and 'Test template'. The 'DEMO INSPECTION' row is highlighted.

| Test template      | Published | Normal | 3               | 3                | Crop Planner | 03/07/2024 04:03... | Crop Planner | 03/07/2024 04:41... | Enabled         | [Icons] |

- Once disabled, the template will not be visible in the **inspection template list** when creating the inspection workorder.
- For example, disabling the **Demo Inspection** will not be visible and not available for selection during the creation of the inspection workorder.
- Navigation of workorder
  1. From the menu, click on workorders.
  2. Click on the Inspection Tab.
  3. Click on Create
  4. Select inspection template
