Creating Work Orders from Observation

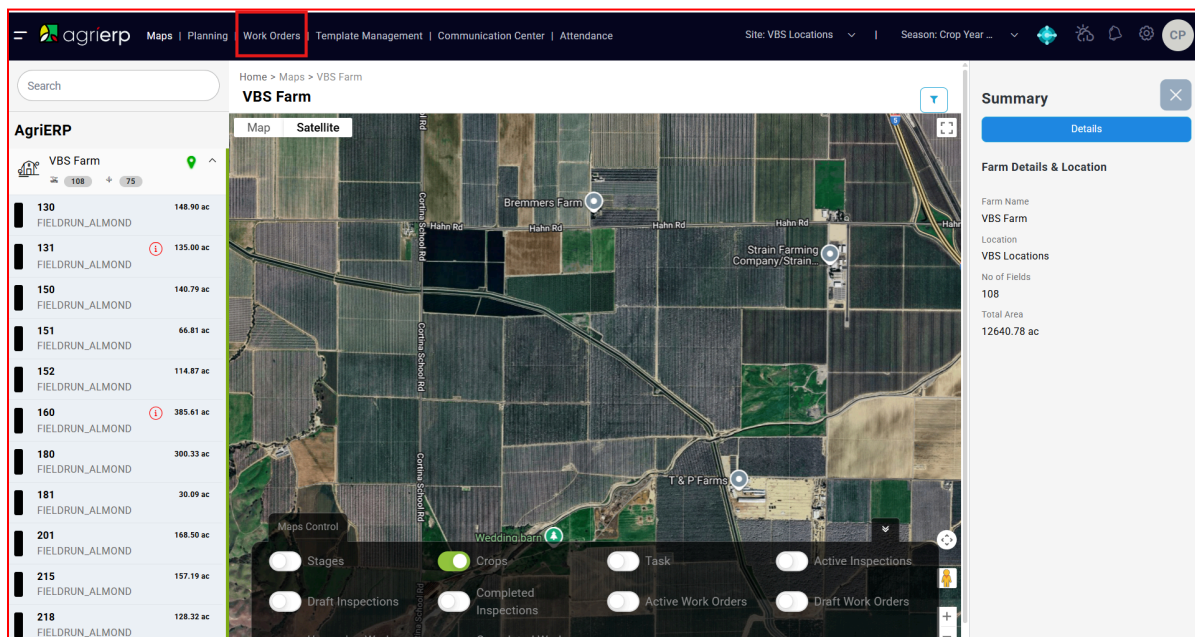

* You can create work orders from observations. Observations are created on mobile, please refer [Creating Observations \(Mob\)](#) .

Step 1: Accessing the Observations on web

1.1 Open a web browser and navigate to AgriERP web app

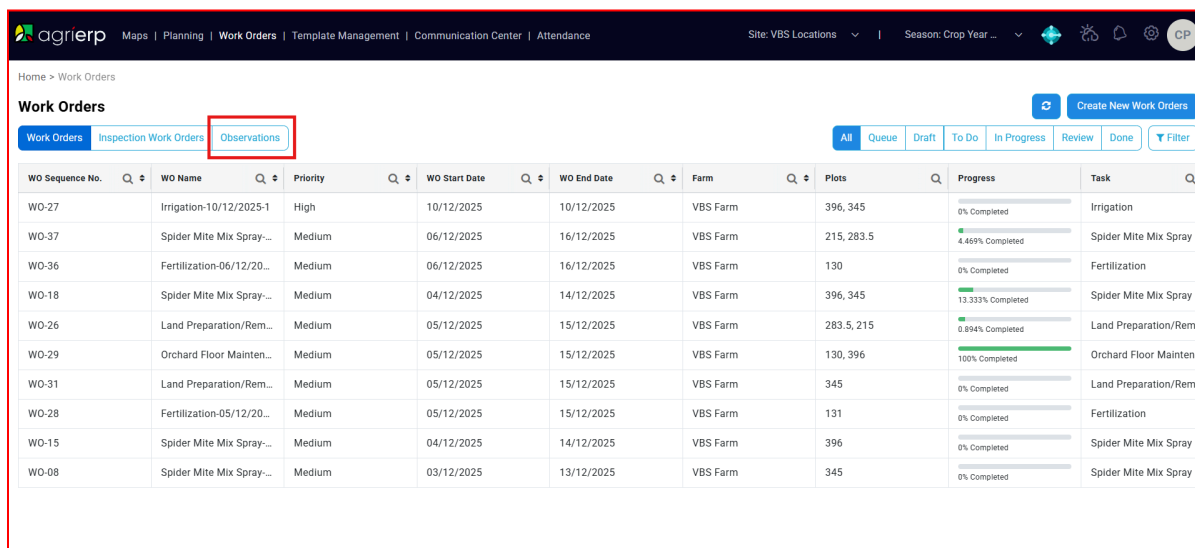

1.2 Enter your credentials and click login

1.3 From top menu click on Work Orders

The screenshot shows the AgriERP web application interface. The top navigation bar includes 'Maps', 'Planning', 'Work Orders' (highlighted), 'Template Management', 'Communication Center', and 'Attendance'. The main content area displays a satellite map of the VBS Farm. On the left, a sidebar lists various fields with their names and areas. On the right, a 'Summary' panel shows farm details and location information. A 'Maps Control' overlay is visible at the bottom of the map, with buttons for 'Stages', 'Crops', 'Task', 'Active Inspections', 'Draft Inspections', 'Completed Inspections', 'Active Work Orders', and 'Draft Work Orders'.

1.4 From menu click on Work Orders

The screenshot shows the 'Work Orders' page in the AgriERP web application. The top navigation bar includes 'Maps', 'Planning', 'Work Orders' (highlighted), 'Template Management', 'Communication Center', and 'Attendance'. The main content area displays a table of work orders. The 'Observations' tab is highlighted in the top navigation bar. The table lists work orders with columns for WO Sequence No., WO Name, Priority, WO Start Date, WO End Date, Farm, Plots, Progress, and Task.
